JSMP launches new website to facilitate public to access justice

On 14 December 2012 JSMP launched its new website: www.jsmp.tl

The website responds to an increasing trend in Timor-Leste of people engaging in communication through new information technology such as websites, Facebook, Twitter, Skype and SMS.

“JSMP hopes that this website will allow everybody to access information from JSMP and provide comments back to JSMP about its work”, said Luis de Oliveira Sampaio, Executive Director of JSMP.

“This is an unique website in Timor-Leste that provides up to date information about issues of justice, law and human rights in Tetum.”

This new website was created with support from Catalpa International and our donor, Justice Facility.
